

Our Product Range

Tastefit

Unique flavour compositions for all your culinary applications.

Fitcolor

Colouring agents for all your culinary applications.

Mayofit

Functional agents for mayonnaise and the sauce industry (cold and hot).

Spicefit

A series of spices and spice blends providing a unique taste to your products.

Flavors by Tevarom

A range of flavours and flavour systems, designed exactly to the flavour profile you want.

Umamix

Natural flavourings that give a powerful umami effect and allow an important salt reduction.

Salt Replacer

Synergetic blends of salt substitutes and natural flavourings enhancing the perception of salinity.

Freshfit

Range of mixes to optimise the preservation of all your food products.

Kokumi

A series of blends of natural flavours to replace the classical taste enhancers.

Salt Booster

Flavourings that enhance the perception of saltiness at very low dosage and thus allow salt reduction.

Masking Agents

A series of auxiliary products which mask off-flavours in your recipes.

Hamfit

A range of powder blends for injection of brine for cooked meat.

Rawfit

Range of ripening agents for raw cured meats.

Chopfit

Range of bowl chopping tools for cured meat and pâté.

Marinafit

Marinades for meat and ready mixes for your sauces, soups and mayonnaises.

Aromafit

Flavours and spice extracts in powder and liquid form, giving the requested typical taste.

Culinafit

Range of culinary sauces, stocks and broths, powder or liquid.

MTF - My Tailor is Fit

Complete tailor-made blends made to measure according to your specific needs.

Optimizer

Optimizes your recipes in terms of colour, consistency, shelf life, processing, taste...

Fitcoat

Functional and aromatic coatings for snacks, meats, vegetables and vegetarian products.

Fishfit

A range of additives designed for the fish and seafood industry.

Because food is our passion

Our product list will give you a good impression of the products we offer. However, our range is expanding constantly, so in case you are looking for any other product, please contact us.

We maintain the highest flexibility in the food industry to develop, produce and pack products. All products are produced and packed by Food Ingredients Technologies in Belgium.

Food Ingredients Technologies is a FSSC 22000 Certified Manufacturer.

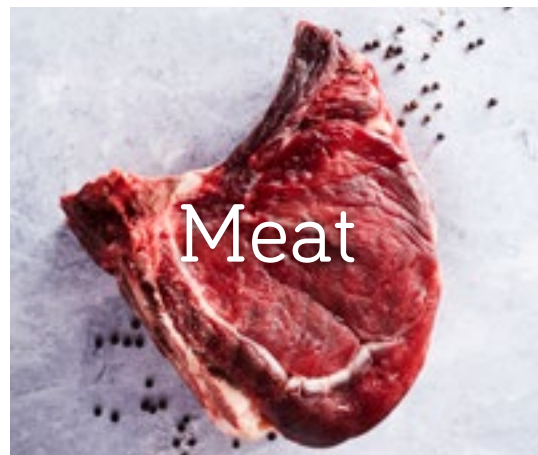

Challenge us to come up with your tailor-made solution!
