

Mycoproteins

by

Naplasol®

plant proteins

Let's co-create with mycoprotein

At Naplasol, we bring you **100% natural mycoproteins**, the sustainable choice for your (plant-based) consumer food products. Our semi-finished products feature a unique and versatile structure, a blank taste canvas, and unparalleled nutritional value.

Harnessing the power of nature through our **innovative fermentation process**, we operate at a remarkable capacity, producing thousands of tons annually. Located in Bree, Belgium, Naplasol is your go-to **mycoprotein specialist** and a proud member of the VEOS Group, a **global leader in the protein market**.
